

OVERVIEW

# DOUBLE-TAKE® SOLUTIONS PROGRAM

Many software companies (ISVs) have built business critical applications that are relied upon by their users to run businesses around the globe. Double-Take Software offers a partnership for those companies that wish to embed the high availability and fault tolerance of our software into their products. This is a special program that gives the ISV community the ability to gain the functionality that their business critical applications need and deliver it through the most trusted brand in the industry. Double-Take is the de facto standard in server replication and recovery and users have become accustomed to the ease of use and functionality in the Double-Take solution suite. As a Double-Take Embedded Solutions partner you can rest easy knowing that your product and customers are working with the best in the business.

#### Double-Take Solution Partner Benefits

The program has been designed with the ISV community in mind and Double-Take has made every effort to make the program easy to use for your business and to easily integrate into your product set. Some of the features include:

- Code Frozen Builds – Certify a solution on a specific build of Double-Take.
- Support Escalation – Designated tech support personnel for all escalations.
- API Integration – Rich API features offer potential for deep integration.
- Sales & Marketing Support – Dedicated sales, architecture, and marketing teams.

If you would like to become a part of the Double-Take Solutions Program, please contact our business development team by emailing [doubletakesolutions@doubletake.com](mailto:doubletakesolutions@doubletake.com) to start the process. You can also find additional information on the program and the partner application online by visiting [www.doubletake.com](http://www.doubletake.com).

---

**"Momentum's Secure Network Gateway has quickly become a critical application to our Fortune 2000 customers that exchange thousands of time-sensitive files each month," said Joseph Regina, Vice President of Operations, Momentum Systems, LLC. "The Double-Take® Solutions Program lets us build best-in-class replication of critical data into the application so customers are assured of minimal downtime in the event of a system failure."**

---

---

**Double-Take Software is a leading provider of affordable software for recoverability, including continuous data replication, application availability and system state protection. Double-Take Software products and services enable customers to protect and recover business-critical data and applications in both physical and virtual environments. We provide solutions that make recovery easy for Exchange, SharePoint, SQL, Virtual Systems, Oracle and more. Customers worldwide rely on our capabilities - and now through the Double-Take Solutions Program, you too can provide your customers with innovative data protection by embedding Double-Take in your own solution.**
